Summer Term, Week 3, w/c 04.05.20

Dear Parents and Carers,

What a wonderful week I've had seeing lots more photos of the children's work including those I haven't heard from for a long time. Thank you. I particularly enjoyed reading some of the children's creative writing inspired from the photos on Pobble 365 and will share these with this weeks' photos. Keep them coming in – the children's ideas and enthusiasm is infectious.

Microsoft Teams - It would be lovely to get a few more parents and children using Microsoft Teams if possible. It is becoming a better way for me to share and receive work, with parents asking questions and commenting on things that may be of interest to everyone. Using the app on your phone is just as easy as Evidence Me.

Hyperlinks – It seems some of you maybe finding it hard to navigate the different websites that I'm suggesting. To help with this I have been putting the hyperlinks on these newsletters which should take you directly to the page you need. Hope this helps in the future.

On Friday this week we celebrate the 75th anniversary of VE day and a Bank Holiday, so you can treat this day as a day off school. School will however still be open for key worker children.

I hope you have another good week, and as always, please don't hesitate to contact me if you have any queries.

Daily Exercise

Keep healthy and active by continuing with [Joe Wicks Daily Workout](#)

Skipping workout – Skipping is a great way to get your heart racing. One minute of skipping a day gives you all the health benefits of increasing your coordination and fitness and is an ideal activity to practice while we're stuck at home. Attached is an activity sheet with some different challenges for the children to try.

Maths

Daily Maths activity

Fluent in 5

Maths cont.

White Rose Maths

Year 3 – A little bit of a break from Fractions. This week we are converting pounds and pence, adding and subtracting money and multiplying and dividing by 3. Find the video and corresponding activity and answer sheets here [Year 3 Maths Week 3](#)

Year 4 – This week we are practicing multiplying using the column method and dividing using the part/part whole method. Find the video and corresponding activity and answer sheets here [Year 4 Maths Week 3](#). Some of the children might want a further challenge, so try the Year 5 Lesson 2 (multiplying with 2 digits) and Lesson 3 (dividing using the bus stop method) [Year 5 Maths Week 3](#).

Friday is Challenge Day – Use this link for [Maths games and puzzles \(NRICH\)](#)

Times tables

Make a times tables origami Fortune Teller. Use the attached sheet for instructions/template for the 3 and 6 times tables or watch the following video [Origami Fortune Teller](#) and make your own.

English

Look out for this weeks PowerPoint where you will find examples of work already completed by some of the children. I would be really keen to see some more by continuing to use Pobble 365 images. Remember to use the list of objectives to improve your writing I sent you last week. Here's the link [Pobble 365](#) and choose any image and story starter interests you.

SPAG (Spelling Punctuation Grammar) Watch the vide and play quizzes using the following link on BBC Bitesize [fronted adverbials](#).

Complete the attached worksheet "Little Mouse Adverbials" identifying adverbs and fronted adverbials. If you're still hungry for more watch the following lesson.

[Oak Academy Lesson Fronted Adverbials](#)

Spellings

Keep practicing your spellings on a daily basis. Please also watch the following video [Homophone there/their/they're](#) and complete the attached worksheet.

Topic

History

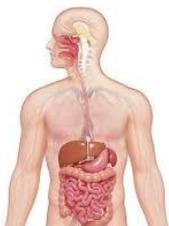

VE Day

VE Day stands for Victory in Europe day and marked the end of fighting in Europe in 1945. Attached is an information PowerPoint and comprehension sheet, but there will be much more on TV, radio and internet this week. Please could the children also do some research and present their findings in any way they like. This could be a PowerPoint, leaflet or labelled picture. Maybe could research one of the key people such as Winston Churchill, Hitler, Stalin or King George VI.

Topic cont.

Science

The Digestive System

It's time to revise what you have learnt about the digestive system. Please find attached a dominoes game. Please print, cut them out and match the word with the description.

Now it's your turn to write an Acoustic Poem about one part of the digestive system. All the instructions and an example are on the attached sheet.

Music

Learning from home
with Yumu

Charanga is an online music school with parents access via YUMU. You will be emailed login instructions and passwords to access this. Here your children will learn about rhythm, pitch, pulse and much more by listening and reacting to songs. I have set up two songs for you to try to start with "Living on a Prayer" by Bon Jovi and "Mamma Mia" by Abba. I hope you enjoy using it.

Reading

Whole Class Read – Fantastic Mr Fox

Please read Chapter 17 and 18 and complete the comprehension questions and a short task.

Home Reading Books

I'd love to hear about what you've been reading at home Year 3/4 .

Please could you send me a photo of you reading with a sibling or parent, and/or reading in an unusual or interesting place.

Could you record a quick video to tell the other children in your class why you like the book?

What is the book about?

Why do you like it?

What does it include that is useful to you if it is a non-fiction book?

Who would like the book and why?

Please also continue to access books and quizzes online at Rising Stars.
