

## Home School Learning

Summer Term, Week 4, w/c 11.05.20

Dear Parents and Carers,

Weren't we blessed with the weather for VE Day! Hopefully you enjoyed taking part in some of the celebrations, two minute's silence, the Queen's Speech and sang along with Vera Lynn. It was wonderful to see all the houses decorated with bunting and flags. Everyone really put in a huge effort despite these unusual times.

Attached you will find another PowerPoint with some examples of the children's work which will hopefully inspire the everyone to keep going with their home learning.

We would like you to continue to access the **White Rose Maths** videos online however, you will no longer have free access to the worksheets online. Instead I will **email these to you or you can access them on Teams**.

Finally, I came across the following video teaching children how to perform a magic trick [magic trick](#). Hope you have fun with it. It would be lovely to see a photo or video of your performance.

I hope you have another good week, and as always, please don't hesitate to contact me if you have any queries.

Dawn Osman

Year 3/4 Teacher

[BBC Bitesize Primary](#)

[Oak National Academy](#)

### **Daily Exercise**

Keep healthy and active by continuing with [Joe Wicks Daily Workout](#)

### **Obstacle course**

Make your own obstacle course in your garden or front room (if you're careful!). Grab anything you can get your hands on like hoops, skipping rope, balls or a seat. Encourage the children to think how they move at each station for example go under, over, through, balance, do star jumps, throw and aim, the list is endless. Let the children's ideas run wild.

### **Maths**

*Daily Maths activity*

#### **Fluent in 5**

Year 3 – This week the children will come across division with a remainder that may be new to some.

Year 4 – This week the children are revising adding fractions. Please use the following link if they need a

reminder on how to do this. [Adding fractions with common denominator](#). They will also be adding fractions where the denominator (bottom number/below the line) is different, which might be new to some children, so here is a video to remind them. [Adding Fractions with different denominators](#).

### **White Rose Maths**

Year 3 – This week the children are working on multiplication and division. They will be practising using their 4 and 8 times table knowledge too. Worksheets have been emailed or will be available on Teams.

Year 4 – Will be revising finding the perimeter of a rectangle and a rectilinear shape and finding the area of a shape by counting squares. Worksheets attached or available on Teams. Worksheets have been emailed or will be available on Teams.

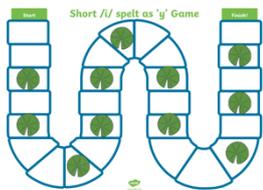

### **Times tables**

Attached is a maths game board to help you practice the 4 and 8 times tables. All you need is a dice/spinner and counters to play.

### **English**

Please continue to pick a photo from Pobble 365 and either use the story starter or related comprehension and SPAG activities.

### **SPAG (Spelling Punctuation Grammar)**

**Spellings** - Keep practicing your spellings on a daily basis using the Look, Say, Cover approach.

**Activity 1:** This week's spellings are words where the "i" sound is spelt with a "y". Watch the following video ["i" spelt "y"](#) and play the attached board game.

**Activity 2:** Can you help Mr Woops to correct the sentences? See the attached activity.

### **Topic**

#### **Geography**

Watch the video introducing maps. [What is a map? How to use a map.](#)

**Activity 1:** Look at the attached Ordnance Survey map of Boroughbridge. Your task is to find and draw a line (using a ruler) to local places and landmarks on the map using the symbols for guidance (also attached).

**Activity 2:** Search Google Maps online. Investigate where you live by typing in the first line of your address followed by Boroughbridge. Tell me five landmarks that are close to where you live. For example, I live near Ripon Cathedral, River Skell, A61 bypass, Courthouse museum and Ripon Cathedral School.

#### **Science**

Watch the following video to find out what happens to your food when you eat it.

[Dazzling Digestion](#)

This week we are learning about our teeth. Look through the information Power point "All about Teeth" and complete the attached activity.

## French

Last term we learned about “Les Animaux” (animals).

Start by watching the following funny video clips on [BBC bitesize Pets](#).

Did you notice anything unusual about the French word for animal noises in “Old

Mac Donald has a farm”?

Complete the attached activity sheet “Les Animaux”.

You will also find the attached instruction sheet to access [Memrise Home Page](#), a free website that teaches French vocabulary in an interactive way.

**MEM  
RISE**

## Reading

### *Whole Class Read – Fantastic Mr Fox*

Your task this week is to create a project based on the story of Fantastic Mr Fox. It could be a piece of artwork, a model, host a party, bake (Mr Bunces doughnuts maybe), a game or puzzle. Your options are endless.

### *Home Reading Books*

This week I would like you to find a poem that you like. If you don't have a book of poems at home, you could search online “popular poems for kids”. You could also ask a member of the family or neighbour for their favourite poem.

Please also continue to access books and quizzes online at Rising Stars.
